HP's free ePrint service provides an easy way to print from e-mail, anywhere and anytime. Simply attach a file to an e-mail, and send it to this printer's e-mail address. The attachment will print as a supported attachment file type. Supported attachment file types include .pdf, .doc, .docx, .ppt, .pptx, .xls, and .xlsx. NOTE: Attachments may print differently than they appear in the software program which created them, depending on the original fonts and layout options used.

HP ePrint assigns a random e-mail address to each printer. It does not respond to e-mail addresses that are not assigned to the printer. ePrint also provides spam filtering and transforms e-mail and attachments to a print-only format to reduce the threat of a virus or other harmful content. NOTE: The ePrint service does not filter e-mails based on content, so it cannot prevent objectionable or copyrighted material from being printed.
